

ECOGEN 2010

THE POWER TO DELIVER
UNITING THE CLEAN ENERGY INDUSTRY

Conference | Exhibition | Whole-of-industry approach | Sustainable solutions
Emerging and established technologies | Commercial and technical sessions

Sydney Convention and Exhibition Centre
5 – 8 September 2010

Your invitation

IT IS WITH great pleasure that I invite you to be part of EcoGen 2010, the clean energy industry conference and exhibition for Australia's clean energy industry.

Australia's clean energy industry is bringing sustainable solutions to the Australian energy market and making a sustainable energy future a reality in a land with abundant natural resources.

EcoGen 2010 will be a huge event offering those involved an interactive industry forum to promote their clean energy solutions.

projects, people and technologies, and engage on key issues relevant to the industry's present and future.

EcoGen 2010 will feature:

- Leading speakers from Australia and abroad
- The latest technologies and solutions
- Highly engaged industry members for excellent networking opportunities and social events
- The inaugural Australasian Clean Energy Industry Awards to recognise excellence and success.
- Coverage of all facets of clean energy.

Clean energy and energy efficiency offer solutions to significantly curb emissions, secure a sustainable future and smarten up energy.

Key to implementing these energy solutions and advancing Australia's renewable and low-emission energy market are discussion, debate and promotion of the industry.

EcoGen 2010 is the forum dedicated to staging the business of clean energy.

The conference and exhibition is an event for industry, made possible by the industry and I look forward to working with you.

Sarah Robertson
Editor – EcoGeneration

Focusing on everything – and only – clean energy, the event will feature key speakers from Australia and abroad, an exhibition packed full of the latest and greatest clean energy solutions, and offer excellent networking and entertaining social events.

EcoGen 2010 is brought to you by the industry specialist publishers of *EcoGeneration* magazine and *Australasian Clean Energy Directory*, and will be the premier business to business event.

Industry leaders and decision makers from across the clean energy spectrum will come together for three days in a business environment to network, discuss the latest

ECOGEN2010

THE POWER TO DELIVER: UNITING THE CLEAN ENERGY INDUSTRY

JUST CLEAN ENERGY, ALL CLEAN ENERGY

The 'main event' for the clean energy industry has arrived.

Building on years of experience and dedication to the clean energy industry, *EcoGeneration* magazine is proud to present, EcoGen 2010.

EcoGen 2010 will bring together the highest levels of the clean energy industry, locally and internationally.

EcoGen 2010 will tackle the issues facing the clean energy industry and find the solutions.

Changing our energy environment: Renewable and low emission technologies to power a sustainable future.

Sponsorship

Show your leadership in the clean energy industry with a sponsorship packaged tailored to suit your needs and give you maximum impact for your budget.

See the prospectus available from December 2009 or contact Tim Thompson today to get ahead of the pack.

Exhibition

EcoGen 2010 will attract serious decision makers from the industry, just the sort of people you want to get in front of with your products and services.

Exhibition space will be available from just \$3850 (including GST), see the prospectus available in December 2009, or contact Brett Thompson today to ensure you are first in line for the best space.

GREAT VALUE!

or contact Brett Thompson bthompson@gs-press.com.au or Tim Thompson tthompson@gs-press.com.au

About Great Southern Press

Great Southern Press is the industry publishing and event management specialist who publish *EcoGeneration*, one of the worlds' leading clean energy publications.

Other clean energy publications and communication solutions by the *EcoGeneration* team include the *EcoGeneration* website, *The Australian Clean Energy Directory*, *Emissions News* and the *Wind Map*. Visit the *EcoGeneration* website to find out more about Australia's clean energy industry, from news to views and project, policy and technology information. www.ecogeneration.com.au

EcoGeneration is the print and online publication committed to bringing you industry news, promoting discussion and debate and advancing the clean energy solutions of the future.

Leadership

Leading Australasian and International speakers are being invited to cover topics such as

- Wind power
- Water power – hydro and ocean technologies
- Solar power – including solar PV and solar thermal heating and cooling
- Bioenergy
- Geothermal energy
- Co- and trigeneration
- Energy efficiency and demand management
- Off-grid and on-grid applications, as well as smart grid technologies
- Other emerging/new renewable and low-emission solutions.

Speakers will include high profile leaders from government, industry and NGOs. We look forward to providing you with further details on the exciting speaker program.

Technologies, projects, people, achievements

Taking place over three days, the conference will include plenary sessions and streamed sessions with a particular focus on specific technologies, projects, investment, policy and more. The event will also feature site visits, workshops, forums as well as social and networking functions, bringing the clean industry together at all levels.

Call for Papers

Potential presenters are invited to submit a 200 word abstract, accompanied by a brief biography by email to conferences@gs-press.com.au

Papers will be selected based on their originality, quality, level of interest and relevance to the themes of the conference.

Papers may be of a technical nature, but we will also welcome submissions based on project issues, case studies, policy and finance.

Papers of a purely commercial nature promoting the products and services of a business will not be accepted.

Call for Papers deadline is 31 March 2010.

ECOGEN2010
